## Summary

---

- Frontend-focused Web Developer with 7+ years of experience in building responsive UIs and integrating RESTful services. Currently focused on ReactJS, with 3+ months of hands-on development through self-driven projects including a live cricket scoreboard, admin dashboard and responsive portfolio site.
- Skilled in JavaScript, PHP (CodeIgniter), and MVC architecture with experience in backend logic.
- Passionate about clean code, usability, and learning modern JS frameworks like React.

## Skills & Technologies

---

- **Languages** : PHP, JavaScript
- **Frontend** : React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, jQuery
- **Frameworks** : CodeIgniter, React.js, Pyramid
- **Architecture** : MVC, REST API Integration, Component-Based Architecture, SPA
- **Tools** : Git, Bitbucket, Jira, Vite, Firebase (Auth & Firestore), Vercel, SQL

## Professional Experience

---

**Front-End-Developer – Oct 2019 – May 2025**

**Xebra BizTech LLP:** Mumbai, Maharashtra

### Project: Xebra

- Developed and maintained modules for handling sales, expenses, assets, ledger, balance sheet.
- Created dashboards and financial reports using dynamic, data-driven graphs and analytics.
- Wrote backend APIs and functions for storing, retrieving, and displaying financial data to users.
- Led and mentored interns by assigning weekly goals and reviewing task progress.
- Managed version control (Git) and team collaboration through Jira/Bitbucket.

**Front-End-Developer – Dec 2018 – Oct 2019**

**Windchimes Communication Pvt. Ltd. :** Mumbai, Maharashtra

### Project: Bharatvaani

- Developed a platform where users can register, upload/view innovative videos, watch innovator interviews, read related news, and set/view events.
- Designed and implemented responsive, user-friendly interfaces.
- Implemented backend features for video listing, data retrieval, and dynamic display using PHP.

## Project: OneCohort

- Built a community portal for MSMEs to share company updates, events, offerings
- Focused on dynamic content sharing, clean UI, and user engagement flows.
- Collaborated on backend integration & content handling using structured routing & MVC design.

## Software Developer(GNUKhata project) : Nov 2017 – Sep 2018

**Accion Labs** : Mumbai, Maharashtra

- Developed key modules for GNUKhata accounting software using Python and JavaScript, enhancing user experience.
- Improved system performance and stability by debugging critical issues and upgrading interfaces.

## Junior Web Developer(GNUKhata project) : Apr 2017 – Oct 2017

**Digital Freedom Foundation** : Mumbai, Maharashtra.

- Specialized in front-end development and back-end integration to create scalable, maintainable modules.
- Advocated for Free and Open Source Software within the development community.

## Projects

---

### Live Score Cart – Real-Time Cricket Score Dashboard

**Frontend & React Developer** | **Live:** [live-score-cart.vercel.app](https://live-score-cart.vercel.app) | **GitHub:** [github.com/NiteshCodes-45/live-cricket-scoreboard](https://github.com/NiteshCodes-45/live-cricket-scoreboard)

**Tech Stack:** React.js, Tailwind CSS, Firebase (Firestore & Auth), Vite, Git, Vercel

- Developed a responsive cricket scoreboard with distinct public and admin interfaces.
- Integrated Firebase Firestore for live score synchronization and Firebase Auth for secure admin access.
- Utilized Vite for rapid development and Vercel for seamless deployment and high performance.

## Education

---

### Bachelor Of Engineering: Information Technology - 2016

Finolex Academy of Management and Technology - Ratnagiri, Maharashtra

### Diploma: Computer Engineering - 2013

Rajaram Shinde Polytechnic, Pedhambe – Chiplun, Maharashtra

## Certifications & Training

---

- **React.js Development – Self-paced (Udemy)**  
Covered components, props, state, hooks, routing, and built multiple mini-projects.
- **Advanced JavaScript & Modern Frontend Techniques – Self-paced (Udemy)**

**Nitesh L. Chaughule.**
